Special Issue

New Trends in Forest Fire Research Incorporating Big Data and Climate Change Modeling

Message from the Guest Editors

The workshop and proposed Special Issue focuses on global systems for monitoring wildfires, as well as the missions providing data for this purpose, and the modeling endeavors with regards to climate change, considering the contribution of forest fires. We invite you to submit articles on the following topics: (1) Studies on the impact of climate change on forest fires occurrence and severity;

- (2) Contribution of the current and upcoming Sentinel missions on forest fire research;
- (3) Exploitation of Big Data and dense satellite timeseries for fire disturbance monitoring;
- (4) Improved methods of modelling post-fire vegetation trends;
- (5) Improved capabilities for sharing / understanding / modelling large-volume fire data sets;
- (6) Methods of forest fire detection and monitoring on multiple scales

Dr. Vincent Ambrosia

Guest Editors

Dr. Ioannis Gitas

Lab of Forest Management and Remote Sensing, Aristotle University of Thessaloniki, 54124 Thessaloniki, Greece

Dr. Vincent G. Ambrosia

NASA-Ames Research Center, Moffett Field, CA 94035, USA

Dr. Chariton Kalaitzidis

Program in Geoinformation in Environmental Management, Mediterranean Agronomic Institute of Chania, Hania, Greece

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peerreview process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend Remote Sensing for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S. Geological Survey (USGS), USGS Western Geographic Science Center (WGSC), 2255, N. Gemini Dr., Flagstaff, AZ 86001, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank:

JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
