

## Special Issue

# Themed Issue: Practical or Economic Applications of Optical/Thermal Remote Sensing: A Themed Issue in Honor of Professor Toby N. Carlson

### Message from the Guest Editor

I am pleased to invite you and/or your colleagues to submit a paper to a Special Issue of *Remote Sensing* on topics related to the practical application of thermal and optical remote sensing (and allied sensors). My object in organizing this Issue of *Remote Sensing* is

- to update us on where we are today in this area of science
- to show how the research has or will have practical applications in a variety of environmental or social issues.

An ultimate objective of research on this subject should be to develop automated methods or user-friendly front ends in which whatever model that is employed can be executed operationally using intelligent algorithms to recognize patterns and perform computations without much human input.

---

### Guest Editor

Prof. Dr. Toby N. Carlson

Department of Meteorology, Pennsylvania State University, 617 Walker Building, University Park, PA 16802, USA

## About the Journal

### Message from the Editor-in-Chief

*Remote Sensing* is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

#### Journal Rank:

JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
