

Special Issue

In Situ Data in the Interplay of Remote Sensing

Message from the Guest Editors

For this Special Issue, we welcome the submission of manuscripts dealing with all aspects of the provision of in-situ data for the interpretation and evaluation of remote sensing data. The focus of interest is on the efficiency and operability of in-situ data provision, as well as on the reliability, accuracy, objectivity or accessibility, timeliness, completeness, appropriate scope, and relevance of in-situ data. In addition, of interest are measurement methods and measurement strategies, test sites, and national and international networks dedicated to data provision, data combinations, and the creation of historical time series useful for calibrating, validating, verifying remote sensing sensors, missions, processors, data, and value-added information products. Therefore, this call is also open for all related topics concerning Cal/Val activities.

Guest Editors

Prof. Dr. Peter Dietrich

Prof. Dr. Erik Borg

Dr. Mona Ahmad Mahmoud Morsy

About the Journal

Message from the Editor-in-Chief

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S. Geological Survey (USGS), USGS Western Geographic Science Center (WGSC), 2255, N. Gemini Dr., Flagstaff, AZ 86001, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank:

JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
