Mountain Remote Sensing

Message from the Guest Editors

Mountains are amongst the most vulnerable regions in the world. In the last few decades, mountains worldwide have undergone dramatic changes. Melting glaciers and less snow are leading to changes in the water regime. Natural hazards, such as landslides, rockfalls or glacier lake outbursts, are threatening mountain populations. Land-use change and climate change are putting pressure on the last remaining natural ecosystems, as well as on mountain agriculture and forestry. We invite you to submit articles on the following topics:

- Remote sensing of cryosphere and the water cycle in mountains
- Remote sensing of natural hazards in mountains
- Remote sensing of vegetation and land-cover dynamics in mountains.
- Remote sensing methodologies for mountains

About the Journal

Message from the Editor-in-Chief

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S. Geological Survey (USGS), USGS Western Geographic Science Center (WGSC), 2255, N. Gemini Dr., Flagstaff, AZ 86001, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank:

JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
