

Special Issue

Selected Papers of Microwave and Radar Week (MRW 2020)

Message from the Guest Editors

The aim of this Special Issue is to present the latest research results in all areas presented during MRW 2020, especially in the area of widely understood remote sensing and sensors. The contributions from leading experts in these fields of research will be collected and presented in this Special Issue. Topics include, but are not limited to: * Microwave and THz radar imaging techniques; * RF and microwave components used for remote sensing applications; * Target recognition and classification in radar images; * SAR and ISAR techniques for remote sensing application; * Advances in large distributed systems related to remote sensing; * Advances in measurement methods and systems related to remote sensing; * Applications of remote sensing; * Signal processing for remote sensing. * Microwave and wireless technologies and applications, * Radar technologies and applications * Advances in signal processing and its applications, particularly in radar communications.

Guest Editors

About the Journal

Message from the Editor-in-Chief

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S. Geological Survey (USGS), USGS Western Geographic Science Center (WGSC), 2255, N. Gemini Dr., Flagstaff, AZ 86001, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank:

JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
