

Special Issue

Recent Advances in Gravity Waves Seeded by Natural Hazards and Their Effects on the Lower and Upper Atmosphere: Observation and Simulation

Message from the Guest Editors

This Special Issue aims to present recent advances in detecting and characterizing different waves generated from natural hazards and their effects on the ionosphere. It also seeks to provide state-of-the-art perspectives on strategies to develop earthquake/tsunami early warning systems through the use of modern technological tools such as the deep-ocean assessment and reporting of tsunamis system (DART), tide gauge sensors, satellites systems, low-frequency array (LOFAR) and GNSS receivers, incoherent scatter radar (ISR) systems, and magnetometers, as well as develop comprehensive new modeling tools.

Guest Editors

Dr. Olusegun F. Jonah

Dr. Esfhan Alam Kherani

Dr. Yuichi Otsuka

Dr. Cesar E. Valladares

About the Journal

Message from the Editorial Board

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Editors-in-Chief

Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S. Geological Survey (USGS), USGS Western Geographic Science Center (WGSC), 2255, N. Gemini Dr., Flagstaff, AZ 86001, USA

Prof. Dr. Dongdong Wang

Institute of Remote Sensing and Geographic Information Systems, Peking University, Beijing, China

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank:

JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
