

## Special Issue

# Remote Sensing in Sea Ice

### Message from the Guest Editors

We would like to invite you to submit manuscripts to a Special Issue of “Remote Sensing in Sea Ice” in the journal of *Remote Sensing*. We welcome the submission of manuscripts related to recent research and activities about sea ice using airborne, space-based, and UAV remote sensing, in situ measurements, and integration and modeling based on those observations. Especially, we invite contributions of recently launched SAR satellites and historical imaging radar data. However, the topic of this Special Issue will include active and passive microwave remote sensing, optical and hyperspectral observations, calibration and validation with in situ observations and sea ice model, and data fusion and assimilation approaches of remotely sensed imagery. We thank you in advance for your consideration to submit manuscripts to this Special Issue on sea ice remote sensing, and encourage you to share this announcement with your colleagues.

### Guest Editors

Dr. Sang-Hoon Hong

Dr. Hyun-Cheol Kim

Dr. Sang-Wan Kim

Dr. Batuhan Osmanoglu

### Deadline for manuscript submissions

closed (30 April 2022)

## About the Journal

### Message from the Editor-in-Chief

*Remote Sensing* is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

#### Journal Rank:

JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
