

Special Issue

Sensing Archaeology in the North: The Use of Non-Destructive Sensing Methods in Archaeology in Scandinavian and North Atlantic Territories

Message from the Guest Editors

The goal of this Special Issue is to gather original articles showing practical application of ground-based, marine and remote sensing methods to investigate archaeological sites in Scandinavia and the North-Atlantic. Also, critical approaches assessing the state of the art on the use of these methods in the management of cultural heritage of the North are highly encouraged.

Keywords

- remote sensing
- near-surface geophysics
- archaeology
- marine archaeology
- archaeological prospection
- aerial archaeology
- LiDAR
- monitoring
- cultural heritage management
- photogrammetry
- GIS
- UAV/drone mapping
- underwater robotics
- synthetic aperture sonar
- underwater hyperspectral imaging
- magnetometry
- earth resistance/resistivity
- FDEM
- GPR

About the Journal

Message from the Editor-in-Chief

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Editor-in-Chief

Dr. Prasad S. Thenkabail

Senior Scientist (ST), U. S. Geological Survey (USGS), USGS Western Geographic Science Center (WGSC), 2255, N. Gemini Dr., Flagstaff, AZ 86001, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank:

JCR - Q1 (Geosciences, Multidisciplinary) / CiteScore - Q1 (General Earth and Planetary Sciences)
