

Special Issue

Complex Cases in Diagnostic and Interventional Imaging

Message from the Guest Editor

Complex cases in diagnostic and interventional imaging often involve unique challenges, requiring a multifaceted approach to accurately diagnose and treat patients. This Special Issue will cover various topics, including oncological imaging, vascular imaging and interventions, gastrointestinal cases, and pediatric imaging. The aim of this Special Issue is to underline the importance of multidisciplinary approaches, the usefulness of advanced technologies, and the importance of patient safety. These complex cases highlight the importance of developing advanced imaging techniques, attaining a thorough understanding of anatomy, and facilitating a collaboration within a medical team to provide the best patient care.

Guest Editor

Dr. Cesare Maino

Department of Diagnostic Radiology, IRCCS Fondazione San Gerardo dei Tintori, Via Pergolesi 33, 20900 Monza, Italy
