Message from the Guest Editors

Dear Colleagues,

Gynecologic oncology is a rapidly evolving field of medicine that integrates knowledge from various fields and often requires a multidisciplinary approach when planning the treatment. Clinical, radiological and molecular information must all be included in the treatment plan. Recent molecular advances in endometrial and ovarian cancer have improved our understanding of these diseases and their response to treatment and moved the trend of treatment towards personalized medicine. There are, however, still many questions that remain unanswered, such as the best approach in advanced ovarian cancer, the role of neoadjuvant chemotherapy in fertility-sparing treatment of cervical cancer, and many more. This Special Issue aims to answer these seemingly unanswerable questions.

Message from the Editor-in-Chief

Welcome! Those of you who are interested in reproductive medicine and biology are warmly invited to submit your original research articles, short communications and comprehensive reviews for consideration and publication in *Reproductive Medicine*. Our journal *Reproductive Medicine* is published in open access format, i.e. your articles and reviews are published online immediately after acceptance. The scientific community and the general public will have unlimited and free access to the content as soon as it is published. We would be more than pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **ESCI (Web of Science)**, **Scopus**, **FSTA**, and **other databases**.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 26.3 days after submission; acceptance to publication is undertaken in 6 days (median values for papers published in this journal in the second half of 2025).
