

Special Issue

Recent Advances in Fetal Medicine 2022

Message from the Guest Editors

The aim of this Special Issue of *Reproductive Medicine* is to explore current advances in the field of fetal medicine, including early diagnosis of fetal abnormalities, screening and diagnosis of chromosomal defects and genetic syndromes, intrauterine treatment and surgery, placental anomalies, screening and interventions to prevent preeclampsia, fetal growth restriction, stillbirth, preterm delivery and management of obstetric problems of multiple pregnancies, assisted reproductive techniques, and maternal disease. Submission of unpublished original studies is welcome, including fundamental and clinical research studies, observational and interventional studies, and randomized controlled trials and reviews, with an emphasis on relevant clinical questions and quantitative syntheses (meta-analyses) of pooled data. Authors are invited to contact the Editorial Team in advance if they require assistance for the preparation of their manuscript.

Guest Editors

Dr. Paolo Ivo Cavoretto

IRCCS San Raffaele Hospital and University, Via Olgettina 62, 20132 Milan, Italy

Dr. Anca Maria Panaitescu

Department of Obstetrics and Gynecology, "Carol Davila" University of Medicine and Pharmacy, 010164 Bucharest, Romania

Deadline for manuscript submissions

closed (31 December 2022)
