

Special Issue

Security, Policy and Political Economy of Energy and Minerals

Message from the Guest Editor

The global energy system is undergoing a major transformation. This transformation, commonly referred to as energy transition, has a wide-range impacts on different regions and nations. This Special Issue aims to examine the effects of the ongoing transition in security, policy and political economy trends related to energy and critical minerals both globally, and across different nations and regions. We are specifically interested in strategic aspects of the realignment in global geopolitics and geoeconomics as a consequence of the transition. Policy options and strategies can be evaluated by balancing the inward looking, domestic risk minimization dimension (energy and resources security), and the outward looking, international power projection dimension (energy and resources statecraft). This Special Issue welcomes submissions from a broad range of inter-disciplinary experts and practitioners.

About the Journal

Message from the Editor-in-Chief

Responsible prosperity is underpinned by sustained access to resources. *Resources*, publishes excellent science and scholarship which transforms understanding, practices and policies for conserving all natural resources—from water, land and air; to plant and animal biodiversity; to minerals and energy and their interconnection across scales. Significantly, we invite high quality submissions from natural and social sciences.

Build impact from your research by submitting to *Resources*, an open-access journal connecting you with data, insights, ideas and evidence needed to shape a better world.

Editor-in-Chief

Prof. Dr. Benjamin McLellan

Graduate School of Energy Science, Kyoto University, Yoshida-honmachi, Sakyo-ku, Kyoto 606-8501, Japan

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), GEOBASE, GeoRef, PubAg, AGRIS, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Sciences) / CiteScore - Q1
(Nature and Landscape Conservation)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 23.3 days after submission; acceptance to publication is undertaken in 4.5 days (median values for papers published in this journal in the second half of 2025).
