

Special Issue

Municipal and Industrial Waste Management

Message from the Guest Editors

Innovations in waste and resource management are emerging globally. Waste is now viewed as a valuable resource to be utilized rather than a potential source of pollution to be disposed of. Circular economy has emerged as the driving paradigm for sustainable resource management and products, and supply chains and business models are being redesigned to harness this opportunity. New wealth is being created by recovering value from waste and promoting a circular flow of resources. However, municipalities and industries are still struggling to handle responsibly the wastes generated by human and economic activities. This Special Issue on “Municipal and Industrial Waste Management” will highlight challenges in waste management, identify opportunities to recycle and derive value from waste, and disseminate the latest knowledge and progress in realizing a circular economy.

About the Journal

Message from the Editor-in-Chief

Responsible prosperity is underpinned by sustained access to resources. *Resources*, publishes excellent science and scholarship which transforms understanding, practices and policies for conserving all natural resources—from water, land and air; to plant and animal biodiversity; to minerals and energy and their interconnection across scales. Significantly, we invite high quality submissions from natural and social sciences.

Build impact from your research by submitting to *Resources*, an open-access journal connecting you with data, insights, ideas and evidence needed to shape a better world.

Editor-in-Chief

Prof. Dr. Benjamin McLellan

Graduate School of Energy Science, Kyoto University, Yoshida-honmachi, Sakyo-ku, Kyoto 606-8501, Japan

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), GeoRef, PubAg, AGRIS, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Sciences) / CiteScore - Q1
(Nature and Landscape Conservation)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 24.6 days after submission; acceptance to publication is undertaken in 4.6 days (median values for papers published in this journal in the first half of 2025).
