

Special Issue

Resource Extraction from Agricultural Products/Waste

Message from the Guest Editors

The extraction process is the starting point for the isolation and purification of chemical constituents present in agricultural resources, especially in agricultural byproducts. This Special Issue focuses not only on the conventional extraction methods, but also on the latest and most innovative approaches for extracting bioactive compounds from foods and agricultural by-products. Manuscripts that focus on functional applications, scale-up and process commercialisation using extraction techniques are also welcome.

Guest Editors

Dr. Athanasios Angelis Dimakis

Dr. Maria Dimopoulou

Dr. Antonia Vyrkou

About the Journal

Message from the Editor-in-Chief

Responsible prosperity is underpinned by sustained access to resources. *Resources*, publishes excellent science and scholarship which transforms understanding, practices and policies for conserving all natural resources—from water, land and air; to plant and animal biodiversity; to minerals and energy and their interconnection across scales. Significantly, we invite high quality submissions from natural and social sciences.

Build impact from your research by submitting to *Resources*, an open-access journal connecting you with data, insights, ideas and evidence needed to shape a better world.

Editor-in-Chief

Prof. Dr. Benjamin McLellan

Graduate School of Energy Science, Kyoto University, Yoshida-honmachi, Sakyo-ku, Kyoto 606-8501, Japan

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), GEOBASE, GeoRef, PubAg, AGRIS, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Sciences) / CiteScore - Q1
(Nature and Landscape Conservation)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 23.3 days after submission; acceptance to publication is undertaken in 4.5 days (median values for papers published in this journal in the second half of 2025).
