

Special Issue

10th Anniversary of Resources

Message from the Guest Editors

Resources released its first issue in 2012 is now celebrating its 10th anniversary. Thanks to all contributing researchers along with our dedicated reviewers and editorial team, Resources has become a popular outlet for publishing research on topics concerning natural resources.

This Special Issue has been set up to commemorate the 10th anniversary of Resources. The focus will be on the publication of comprehensive reviews, regular articles and short communications reflecting the progress in sustainable resources management over the last 10 years. We also invite integrated assessments on the use and/or status of major resources in the focus of the journal: energy, water, food and bio-resources, minerals, land and ecological resources plus governance and policy aspects. We also welcome forward-looking articles examining issues reflecting on the main societal challenges and on how to achieve the Sustainable Development Goals within planetary boundaries.

We encourage authors representing traditional knowledge to provide alternative approaches to the mainstream perspectives in resources use.

Guest Editors

Prof. Dr. Damien Giurco

Prof. Dr. Eva Pongrácz

Prof. Dr. Benjamin McLellan

About the Journal

Message from the Editor-in-Chief

Responsible prosperity is underpinned by sustained access to resources. *Resources*, publishes excellent science and scholarship which transforms understanding, practices and policies for conserving all natural resources—from water, land and air; to plant and animal biodiversity; to minerals and energy and their interconnection across scales. Significantly, we invite high quality submissions from natural and social sciences.

Build impact from your research by submitting to *Resources*, an open-access journal connecting you with data, insights, ideas and evidence needed to shape a better world.

Editor-in-Chief

Prof. Dr. Benjamin McLellan

Graduate School of Energy Science, Kyoto University, Yoshida-honmachi, Sakyo-ku, Kyoto 606-8501, Japan

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), GeoRef, PubAg, AGRIS, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Sciences) / CiteScore - Q1
(Nature and Landscape Conservation)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 24.6 days after submission; acceptance to publication is undertaken in 4.6 days (median values for papers published in this journal in the first half of 2025).
