Message from the Guest Editors

Dear Colleagues,

The Research School of Finance, Actuarial Studies and Statistics, College of Business and Economics, Australian National University, is convening a two-day workshop on the 6th and 7th September 2018 with the intention of bringing together experts in these areas from different disciplines to present up-to-date reviews and overviews of their subjects. The workshop will provide a unique opportunity for academics and practitioners to meet and discuss these important actuarial problems and their solutions. For more details, please refer to the workshop webpage: https://www.rsfas.anu.edu.au/rsfas-research/workshop-series/.

We welcome all participants to submit their manuscripts presented at the workshop to this special issue. All manuscripts will be refereed through the same peer-review process of the journal *Risks*.

Keywords

- Extreme value theory
- Aging and longevity
- Catastrophe risks
- Financial risk management
- Predictive analytics
- Measures of risk
- Modelling excess losses
- Dependence modelling and copulas

Message from the Editor-in-Chief

*Risks* is published in open access format – research articles, reviews and other content are released on the internet immediately after acceptance. Specifically, *Risks* welcomes contributions that (a) contribute with insight, outlook, understanding and overview – no matter how simple they are; (b) show creativity in pedagogical tricks and techniques; (c) help the transfer of theoretical research to public and private application; (d) show responsibility for societal impact. The scientific community and the general public have unlimited free access to the content as soon as it is published.

Author Benefits

**Open Access:** free for readers, with article processing charges (APC) partially funded by institutions through Knowledge Unlatched for a limited number of papers in 2019. Please contact the editorial office before submission to check whether KU waivers, or discounts are still available.

**High visibility:** Indexed in the Emerging Sources Citation Index (ESCI - Web of Science) and EconLit. To be added in Scopus from Vol. 6 (2018).

**Rapid publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 17.4 days after submission; acceptance to publication is undertaken in 5.9 days (median values for papers published in this journal in the second half of 2018).
