Deadline for manuscript submissions:

**closed (31 July 2019)**

### Message from the Guest Editors

The key themes of “UNISActuarial SCHOOL 2018” will be new perspectives in actuarial risk management.

In light of these considerations, the risks need to be identified and managed under professional guidance, underpinned by a toolbox of real-world models and bespoke solutions. Successful companies rely on actuarial foundations to understand longer risk exposures in order to effectively and efficiently manage those risks.

In this context, this Special Issue focuses on the social sciences applied to the main topics related to the life insurance field, by means a quantitative approach. Therefore, it solicits high-quality papers for a wide range of actuarial topics:

- Insurance
- Insurance products and contractual innovations
- Stochastic modelling of extremal events in insurance and finance
- Aggregation of risk measures
- Longevity risk
- Solvency analysis
- Retirement planning
- Risk management
- Pensions, etc.

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Steven Haberman

Faculty of Actuarial Science and  
Insurance, Bayes Business  
School, City University of London,  
106 Bunhill Row, London EC1Y  
8TZ, UK

## Message from the Editor-in-Chief

*Risks* is published in Open Access format – research articles, reviews and other content are released on the internet immediately after acceptance. Specifically, *Risks* welcomes contributions that

- contribute with insight, outlook, understanding and overview, no matter how simple they are;
- show creativity in pedagogical tricks and techniques;
- help the transfer of theoretical research to public and private application;
- show responsibility for societal impact.

The scientific community and the general public have unlimited free access to the content as soon as it is published.

## Author Benefits

**Open Access:** free for readers, with **article processing charges (APC)** paid by authors or their institutions.

**High visibility:** indexed within **Scopus**, **ESCI (Web of Science)**, **EconLit**, **EconBiz**, **RePEc**, and **other databases**.

**Journal Rank:** CiteScore - Q1 (*Economics, Econometrics and Finance (miscellaneous)*)
