submissions:

30 June 2019

Message from the Guest Editor

The regulation of financial risks is a topic of active debate among academics, industry practitioners, and policymakers. In the aftermath of the 2007–2009 Great Recession, there was a coordinated effort by regulatory bodies around the world to strengthen oversight and regulation of banks, as evidenced by the passage of the Dodd–Frank Act and the ratification of the Basel III accords. However, the current U.S. government is aggressively moving towards relaxing bank oversight and regulation, thereby suggesting that the debate on regulation remains unresolved. The world is also witnessing climatic events of increasing severity stemming from climate change in recent years, and this is leading to large and catastrophic losses of lives and property. Only a portion of these catastrophic losses are insured, but even limited exposure to losses could lead (and has led) insurers to face insolvency. Consequently, the regulation of insurers is also an issue of very high importance, as evidenced by the ratification of the Solvency II regulation for insurers along with the Basel III accords.

Message from the Editor-in-Chief

Risks is published in Open Access format – research articles, reviews and other content are released on the internet immediately after acceptance. Specifically, *Risks* welcomes contributions that

- contribute with insight, outlook, understanding and overview, no matter how simple they are;
- show creativity in pedagogical tricks and techniques;
- help the transfer of theoretical research to public and private application;
- show responsibility for societal impact.

The scientific community and the general public have unlimited free access to the content as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) partially funded by institutions through Knowledge Unlatched for a limited number of papers in 2019. Please contact the editorial office before submission to check whether KU waivers, or discounts are still available.

High visibility: indexed in the Emerging Sources Citation Index (ESCI - Web of Science) and EconLit. To be added in Scopus from Vol. 6 (2018).

Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approx. 17.4 days after submission; acceptance to publication undertaken in 5.9 days (median values for papers published in *Risks* in the second half of 2018).
