Special Issue

New Approaches in Economics and Finance

Message from the Guest Editors

Consequently, the main aim of this Special Issue is to gather new ideas, position papers as well as collect open problems with the possible view of unifying solutions, helping the international scientific community to propose state-of-the-art models in view of a concrete enhancement in solving the challenges posed by the tumultuous growth of both economics systems and financial settings, more and more intrinsically linked between them and to the energy production/consumption challenges. Possible contributions could be related to Mathematics, Computer Science, Physics of Complex Systems, Economics, Finance, Machine Learning, Artificial Intelligence solutions, Energy, FinTech, Dynamical Systems, Game Theory, Operative Research, and Optimization Theory, though not limited to these.

About the Journal

Message from the Editor-in-Chief

Risks is published in an open access format; research articles, reviews, and other content are released on the internet immediately after acceptance. Specifically, *Risks* welcomes submissions that (a) contribute with insight, outlook, understanding, and overview; (b) show creativity in terms of pedagogical methods and techniques; (c) help the transfer of theoretical and applied research into applications in the public and private domains; and (d) show responsibility for the impact on society. The scientific and the general public have unlimited free access to the content as soon as it is published.

Editor-in-Chief

Prof. Dr. Steven Haberman
Faculty of Actuarial Science and Insurance, Bayes Business School, City St George's, University of London, 106 Bunhill Row, London EC1Y 8TZ, UK

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility:
indexed within Scopus, ESCI (Web of Science), EconLit, EconBiz, RePEc, and other databases.

Journal Rank:
CiteScore - Q1 (Economics, Econometrics and Finance (miscellaneous))
