

Special Issue

Feature Review Papers in *Risks* 2025

Message from the Guest Editors

In the influential and rapidly evolving fields of actuarial science, financial risk management, and insurance, keeping up to date with the latest advancements and trends is crucial for researchers, practitioners, regulators, and policymakers alike. This Special Issue, “Feature Review Papers in *Risks* 2025”, aims to publish cutting-edge reviews that explore theoretical and applied aspects of actuarial science, financial risk management, and insurance. We hope that all of the published papers will be widely read, highly influential, and promote the most recent advances in the field. Topics of interest include, but are not limited to, actuarial science, asset pricing, financial and insurance institutions, financial risk management, financial and insurance markets, financial and insurance regulation, statistical modeling, and stochastic modeling.

About the Journal

Message from the Editor-in-Chief

Risks is published in an open access format; research articles, reviews, and other content are released on the internet immediately after acceptance. Specifically, *Risks* welcomes submissions that (a) contribute with insight, outlook, understanding, and overview; (b) show creativity in terms of pedagogical methods and techniques; (c) help the transfer of theoretical and applied research into applications in the public and private domains; and (d) show responsibility for the impact on society. The scientific and the general public have unlimited free access to the content as soon as it is published.

Editor-in-Chief
