

Special Issue

Traditional and Emerging Risks in the World and Financial Markets

Message from the Guest Editor

This Special Issue aims to contribute to research on the topics of traditional and emerging risks in the world and financial markets and to propose future actions that are useful for addressing them efficiently. Contributions on new indices and measures of emerging risks are also welcome, since in periods of crisis the measurement of derived risks is even more necessary. We invite researchers and professionals from both academia and industry to contribute to this Special Issue by sharing their creative and innovative approaches. The scope of this Special Issue encompasses various aspects, including, but not limited to, the following:

- Risk analysis.
- Risk management.
- Risk measures (indices, indicators, and other metrics).
- Global risks.
- Sovereign risks.
- Money market risks.
- Foreign exchange market risks.
- Debt market risks.
- Equity market risks.
- Insurance risks.
- Emerging risks.
- Actuarial risks.
- Other risks.

About the Journal

Message from the Editor-in-Chief

Risks is published in an open access format; research articles, reviews, and other content are released on the internet immediately after acceptance. Specifically, *Risks* welcomes submissions that (a) contribute with insight, outlook, understanding, and overview; (b) show creativity in terms of pedagogical methods and techniques; (c) help the transfer of theoretical and applied research into applications in the public and private domains; and (d) show responsibility for the impact on society. The scientific and the general public have unlimited free access to the content as soon as it is published.

Editor-in-Chief

Prof. Dr. Steven Haberman

Faculty of Actuarial Science and Insurance, Bayes Business School,
City St George's, University of London, 106 Bunhill Row, London EC1Y
