# **Special Issue**

### Advanced Statistical and Machine Learning Models in Non-life and Health Insurance

#### Message from the Guest Editors

In recent years, advanced statistical and machine learning models have been implemented in many fields, allowing researchers and practitioners to extract more information from the data at hand than ever before. In addition, modern advances allow for the extraction of information from previously unlikely data sources such as text and images. This Special Issue aims to collect papers from the field of non-life and health insurance, where modern statistical and machine learning models are applied to the data typically present in an insurance company, and, if possible and/or relevant, combined with the extraction of information from 'new' data sources like text and images.

Deadline for manuscript submissions closed (20 October 2022)

## About the Journal

### Message from the Editor-in-Chief

*Risks* is published in Open Access format – research articles, reviews and other content are released on the internet immediately after acceptance. Specifically, *Risks* welcomes contributions that

- contribute with insight, outlook, understanding and overview, no matter how simple they are;
- show creativity in pedagogical tricks and techniques;
- help the transfer of theoretical research to public and private application;
- show responsibility for societal impact.

The scientific community and the general public have unlimited free access to the content as soon as it is published.

#### Editor-in-Chief

Prof. Dr. Steven Haberman

Faculty of Actuarial Science and Insurance, Bayes Business School, City St George's, University of London, 106 Bunhill Row, London EC1Y 8TZ, UK

#### **Author Benefits**

#### **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High visibility:

indexed within Scopus, ESCI (Web of Science), EconLit, EconBiz, RePEc, and other databases.

#### Journal Rank:

JCR - Q2 (Business, Finance) / CiteScore - Q1 (Economics, Econometrics and Finance (miscellaneous))
