Special Issue

Computational Methods for Risk Management in Economics and Finance

Message from the Guest Editor

This special issue is devoted to bringing together contributions from both the theoretical and the application side, with a focus on the use of computational intelligence in finance and economics. We therefore welcome and encourage the submission of high quality papers related (but not limited) to:

- Asset Pricing
- Business Analytics
- Big Data Analytics
- Financial Data Mining
- Economic and Financial Decision Making under Uncertainty
- Portfolio Management and Optimization
- Risk Management
- Credit Risk Modelling
- Commodity Markets
- Term Structure Models
- Trading Systems
- Hedging Strategies
- Risk Arbitrage
- Exotic Options
- Deep Learning and Artificial Neural Networks
- Fuzzy Sets, Rough Sets, & Granular Computing
- Hybrid Systems
- Support Vector Machines
- Non-linear Dynamics

Guest Editor

Dr. Marina Resta

Department of Economics and Business Studies, University of Genova, 16126 Genova, GE, Italy

Deadline for manuscript submissions

closed (31 October 2019)

About the Journal

Message from the Editor-in-Chief

Risks is published in an open access format; research articles, reviews, and other content are released on the internet immediately after acceptance. Specifically, *Risks* welcomes submissions that (a) contribute with insight, outlook, understanding, and overview; (b) show creativity in terms of pedagogical methods and techniques; (c) help the transfer of theoretical and applied research into applications in the public and private domains; and (d) show responsibility for the impact on society. The scientific and the general public have unlimited free access to the content as soon as it is published.

Editor-in-Chief

Prof. Dr. Steven Haberman
Faculty of Actuarial Science and Insurance, Bayes Business School, City St George's, University of London, 106 Bunhill Row, London EC1Y 8TZ, UK

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility:
indexed within Scopus, ESCI (Web of Science), EconLit, EconBiz, RePEc, and other databases.

Journal Rank:
CiteScore - Q1 (Economics, Econometrics and Finance (miscellaneous))
