

Special Issue

Selected Papers from the Actuarial Risk Modelling and Extreme Values Workshop

Message from the Guest Editors

The Research School of Finance, Actuarial Studies and Statistics, College of Business and Economics, Australian National University, is convening a two-day workshop on the 6th and 7th September 2018 with the intention of bringing together experts in these areas from different disciplines to present up-to-date reviews and overviews of their subjects. The workshop will provide a unique opportunity for academics and practitioners to meet and discuss these important actuarial problems and their solutions. For more details, please refer to the workshop

webpage: <https://www.rsfas.anu.edu.au/rsfas-research/workshop-series/>. We welcome all

participants to submit their manuscripts presented at the workshop to this special issue. All manuscripts will be refereed through the same peer-review process of the journal *Risks*. **Keywords**

- Extreme value theory
- Aging and longevity
- Catastrophe risks
- Financial risk management
- Predictive analytics
- Measures of risk
- Modelling excess losses
- Dependence modelling and copulas

Guest Editors

Dr. Fei Huang

Prof. Dr. Ross Maller

About the Journal

Message from the Editor-in-Chief

Risks is published in an open access format; research articles, reviews, and other content are released on the internet immediately after acceptance. Specifically, *Risks* welcomes submissions that (a) contribute with insight, outlook, understanding, and overview; (b) show creativity in terms of pedagogical methods and techniques; (c) help the transfer of theoretical and applied research into applications in the public and private domains; and (d) show responsibility for the impact on society. The scientific and the general public have unlimited free access to the content as soon as it is published.

Editor-in-Chief

Prof. Dr. Steven Haberman
