

Special Issue

Microfinance Risk Management

Message from the Guest Editors

The microfinance ecosystem is rapidly changing, and the industry is facing new challenges, ranging from technological discontinuity to demographic pressures and climatic change. This affects risk patterns, even beyond the traditional sustainability-versus-outreach trade-off. Rising risks are increasingly managed by digitalization and innovative technologies, ranging from big data and validating blockchains to artificial intelligence.

About the Journal

Message from the Editor-in-Chief

Risks is published in an open access format; research articles, reviews, and other content are released on the internet immediately after acceptance. Specifically, *Risks* welcomes submissions that (a) contribute with insight, outlook, understanding, and overview; (b) show creativity in terms of pedagogical methods and techniques; (c) help the transfer of theoretical and applied research into applications in the public and private domains; and (d) show responsibility for the impact on society. The scientific and the general public have unlimited free access to the content as soon as it is published.

Editor-in-Chief

Prof. Dr. Steven Haberman
