

## Special Issue

# Artificial Intelligence Risk Management

### Message from the Guest Editor

The growth of artificial intelligence requires researchers to develop risk management models that balance opportunities with risks. This Special Issue welcomes studies that propose methods and applications showing how to measure, manage and mitigate the risks associated with artificial intelligence. We aim to make artificial intelligence responsible, safe and trustworthy.

## About the Journal

### Message from the Editor-in-Chief

*Risks* is published in an open access format; research articles, reviews, and other content are released on the internet immediately after acceptance. Specifically, *Risks* welcomes submissions that (a) contribute with insight, outlook, understanding, and overview; (b) show creativity in terms of pedagogical methods and techniques; (c) help the transfer of theoretical and applied research into applications in the public and private domains; and (d) show responsibility for the impact on society. The scientific and the general public have unlimited free access to the content as soon as it is published.
