

Special Issue

Young Researchers in Insurance and Risk Management

Message from the Guest Editors

Young minds are a wonderful source of fresh, disruptive ideas in the definition, pricing, and mitigation of risk. Unencumbered by traditional approaches to risk management and insurance, this next generation is primed to think about risk in emerging areas such as cyber-insurance and autonomous cars, and offer new insights on traditional actuarial topics. This special issue seeks to put a spotlight on the next generation of actuarial scientists, risk managers, and quants who may not have had the chance to see their work disseminated in a leading journal such as *Risks*. Our goal with this Special Issue is to encourage postdoctoral fellows, graduate, and undergraduate students (with or without PhD/Fellow/Associate co-authors) to submit their work to us in the confidence that they will be reviewed with care by leading academics and practitioners in the field. We hope this experience will encourage our next generation of actuaries and risk managers to keep transforming our field for the betterment of society.

About the Journal

Message from the Editor-in-Chief

Risks is published in an open access format; research articles, reviews, and other content are released on the internet immediately after acceptance. Specifically, *Risks* welcomes submissions that (a) contribute with insight, outlook, understanding, and overview; (b) show creativity in terms of pedagogical methods and techniques; (c) help the transfer of theoretical and applied research into applications in the public and private domains; and (d) show responsibility for the impact on society. The scientific and the general public have unlimited free access to the content as soon as it is published.

Editor-in-Chief

Prof. Dr. Steven Haberman

Faculty of Actuarial Science and Insurance, Bayes Business School,
City St George's, University of London, 106 Bunhill Row, London EC1Y
8TZ, UK
