

Special Issue

Empirical Corporate Finance and Banking: Risk Management in an Uncertain World

Message from the Guest Editors

Corporate finance and banking are no strangers to risks, but in today's world, uncertainty has become the new normal. The increase in political turmoil, climate challenges, financial crises, and the double-edged sword of fintech have created a cocktail of complexity that requires deeper analysis. This Special Issue invites scholars to explore both these challenges and others, contributing fresh insights to a rapidly evolving field.

While topics such as fintech's role in risk management, ESG principles, climate policy uncertainties, climate risk, volatility spillovers, and capital structures are front and center, we welcome submissions that tackle any aspect of risk and uncertainty in corporate finance and banking. Whether you are dissecting geopolitical risks, uncovering novel strategies for financial stability, or bringing new tools to the table, we are eager to see your data-driven insights. Let this be your chance to shine a spotlight on pressing issues or unearth hidden dynamics. Bring your best work and join us in charting the future of risk management in corporate finance and banking.

Guest Editors

About the Journal

Message from the Editor-in-Chief

Risks is published in an open access format; research articles, reviews, and other content are released on the internet immediately after acceptance. Specifically, *Risks* welcomes submissions that (a) contribute with insight, outlook, understanding, and overview; (b) show creativity in terms of pedagogical methods and techniques; (c) help the transfer of theoretical and applied research into applications in the public and private domains; and (d) show responsibility for the impact on society. The scientific and the general public have unlimited free access to the content as soon as it is published.

Editor-in-Chief

Prof. Dr. Steven Haberman

Faculty of Actuarial Science and Insurance, Bayes Business School,
City St George's, University of London, 106 Bunhill Row, London EC1Y
