

## Special Issue

# Advances and Challenges in Educational Robotics

### Message from the Guest Editors

Dear colleagues, Education nowadays is facing challenges to adapt and keep pace with the fast-changing technological world. The radical digital transformation and massive introduction of robots in industry and everyday life give grounds to speak about entering the era of the fourth industrial revolution. The crisis caused by the Covid-19 pandemic catalyzes the assimilation of remote communication and online learning. These matters necessitate novel pedagogies that will prepare people for the deliberate use of robotic systems and active participation in their development. Therefore, it is urgent to introduce, at all levels of education, teaching robotics, and teaching with robotics in ways that align with the current demands. Assoc. Prof. Dr. Chris Krägeloh

### Guest Editors

Prof. Dr. Igor Verner

Faculty of Education in Science and Technology, Technion—Israel Institute of Technology, Haifa, Israel

Dr. Christian Krägeloh

Faculty of Health and Environmental Sciences, Auckland University of Technology, P.O Box 92006, 1142 Auckland, New Zealand

### Deadline for manuscript submissions

closed (30 November 2020)

## About the Journal

### Message from the Editor-in-Chief

It is my great pleasure to welcome you to our open access journal, *Robotics*, which is dedicated to both the foundations of artificial intelligence, bio-mechanics and mechatronics, and the real-world applications of robotic perception, cognition and actions. The 21st century is the robotics century and intelligent robots will change our lifestyle forever. Let us work together toward the realization of intelligent robots step by step. It is great fun to create intelligent robots and imagine their practical applications. *Robotics* is now ready to serve you in the long journey towards such a goal.

---

### Editor-in-Chief

Prof. Dr. Marco Ceccarelli

LARM2: Laboratory of Robot Mechatronics, Department of Industrial Engineering, University of Rome Tor Vergata, Via del Politecnico 1, 00133 Roma, Italy

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), dblp, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Robotics) / CiteScore - Q1 (Control and Optimization)
