10th Anniversary of Robotics— Feature Papers in Intelligent Robots and Mechatronics

Message from the Guest Editors

This year will see the 10th anniversary of *Robotics*. To mark this important milestone, a Special Issue entitled “10th Anniversary of Robotics—Feature Papers in Intelligent Robots and Mechatronics” is being launched. This Special Issue will collect communications, full papers, and high-quality review papers in the field of intelligent robots and mechatronics. Topics addressed in this Special Issue include, but are not limited to, the following:

- Modeling and design strategies;
- Design solutions and developments;
- Mechatronic devices and applications;
- Innovative service tasks;
- Industrial applications;
- Sensor integration and experimental testing strategies;
- Intelligent control and operation strategies;
- Modular, scalable, wearable robots or devices.

About the Journal

Message from the Editor-in-Chief

It is my great pleasure to welcome you to our open access journal, *Robotics*, which is dedicated to both the foundations of artificial intelligence, bio-mechanics and mechatronics, and the real-world applications of robotic perception, cognition and actions. The 21st century is the robotics century and intelligent robots will change our lifestyle forever. Let us work together toward the realization of intelligent robots step by step. It is great fun to create intelligent robots and imagine their practical applications. *Robotics* is now ready to serve you in the long journey towards such a goal.
