

## Special Issue

# Selected Papers from MESROB2025: 9th IFToMM International Workshop on New Trends in Medical and Service Robotics

### Message from the Guest Editors

The aim of the MESROB Workshop is to provide an international platform for researchers, engineers, and PhD students involved in the general field of medical and service robotics to exchange the latest research results and exchange views on future research directions in these areas. From the point of view of research and applications, medical and service robotics are enjoying a growing interest at the same time as the obvious growth of the market. This Special Issue aims at exhibiting the latest research achievements, findings, and ideas in the areas of “Medical and Service Robotics”. The issue will contain, after a strict peer-review process, revised and extended versions of selected conference papers that were presented at the 9th IFToMM International Workshop on New Trends in Medical and Service Robotics (MESROB2025), with the objective of presenting cutting-edge contributions worthy of publication in an archival journal.

### Guest Editors

Prof. Dr. Med Amine Laribi

Institut PPRIME, CNRS, Université de Poitiers, ISAE-ENSMA, UPR 3346,  
86073 Poitiers, France

Prof. Dr. Mehmet İsmet Can Dede

Izmir Insitute of Technology, Izmir, Turkey

### Deadline for manuscript submissions

31 January 2026

## About the Journal

### Message from the Editor-in-Chief

It is my great pleasure to welcome you to our open access journal, *Robotics*, which is dedicated to both the foundations of artificial intelligence, bio-mechanics and mechatronics, and the real-world applications of robotic perception, cognition and actions. The 21st century is the robotics century and intelligent robots will change our lifestyle forever. Let us work together toward the realization of intelligent robots step by step. It is great fun to create intelligent robots and imagine their practical applications. *Robotics* is now ready to serve you in the long journey towards such a goal.

---

### Editor-in-Chief

Prof. Dr. Marco Ceccarelli

LARM2: Laboratory of Robot Mechatronics, Department of Industrial Engineering, University of Rome Tor Vergata, Via del Politecnico 1, 00133 Roma, Italy

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), dblp, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Robotics) / CiteScore - Q1 (Control and Optimization)
