

Joint Special Issue

Mobile Robot Perception: A Themed Issue in Honor of Professor Roland Siegwart

Message from the Guest Editor

Roland Siegwart is professor for autonomous mobile robots at ETH Zurich, founding co-director of the technology transfer center, Wyss Zurich, and co-founder and board member of multiple high-tech companies. He is a well-known expert in the field of autonomous robot design, perception, and navigation. His career as scientist and promotor of startup companies spans over 35 years.

This Special Issue is dedicated to celebrating the career of Prof. Roland Siegwart in honor of his contributions in the field of autonomous mobile robots. It will cover a selection of recent research and review articles related to the science and technology of mobile robot perception and sensor-based localization and mapping.

Guest Editor

Prof. Dr. Cédric Pradalier

International Research Lab. Georgia Tech-CNRS UMI 2958, Metz, France
