

## Special Issue

# The State-of-the-Art of Robotics in Asia

### Message from the Guest Editors

This Special Issue aims to disseminate the latest research achievements, findings, and ideas in the robotics field, with particular attention paid to the Asia scenario. However, manuscripts presenting results of national and international projects with Asiatic partners will also be welcome in this Special Issue. We welcome you to send a short abstract for feature paper submissions to the Editorial Office ([robotics@mdpi.com](mailto:robotics@mdpi.com)) before the formal submission of your manuscript. Selected planned papers can be published in full open access form, free of charge if accepted after a peer review.

## About the Journal

### Message from the Editor-in-Chief

It is my great pleasure to welcome you to our open access journal, *Robotics*, which is dedicated to both the foundations of artificial intelligence, bio-mechanics and mechatronics, and the real-world applications of robotic perception, cognition and actions. The 21st century is the robotics century and intelligent robots will change our lifestyle forever. Let us work together toward the realization of intelligent robots step by step.

It is great fun to create intelligent robots and imagine their practical applications. *Robotics* is now ready to serve you in the long journey towards such a goal.

---

### Editor-in-Chief

Prof. Dr. Marco Ceccarelli

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), dblp, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Robotics) / CiteScore - Q1 (Control and Optimization)
