

Special Issue

Communication with Social Robots

Message from the Guest Editors

This Special Issue addresses topics related to verbal and nonverbal communication with social robots. We invite researchers from various disciplines to contribute to this topic to combine empirical research, theoretical positions, and technological advancements with a human-centered approach (e.g., including a participatory design or user study). The topics include, but are not restricted to, the following:

- Anthropomorphic communication;
- Communication expectancies;
- Context-specific communication;
- Error communication;
- Human-centered design;
- Multimodal communication;
- Social cues.

Best wishes,

Guest Editors

Prof. Dr. Laura Kunold

Human-Centered Design of Socio-Digital Systems, Faculty of Psychology, Ruhr University Bochum, Bochum, Germany

Prof. Dr. Linda Onnasch

Department of Engineering Psychology, Humboldt Universität zu Berlin, Berlin, Germany

About the Journal

Message from the Editor-in-Chief

It is my great pleasure to welcome you to our open access journal, *Robotics*, which is dedicated to both the foundations of artificial intelligence, bio-mechanics and mechatronics, and the real-world applications of robotic perception, cognition and actions. The 21st century is the robotics century and intelligent robots will change our lifestyle forever. Let us work together toward the realization of intelligent robots step by step.

It is great fun to create intelligent robots and imagine their practical applications. *Robotics* is now ready to serve you in the long journey towards such a goal.

Editor-in-Chief

Prof. Dr. Marco Ceccarelli

LARM2: Laboratory of Robot Mechatronics, Department of Industrial Engineering, University of Rome Tor Vergata, Via del Politecnico 1, 00133 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), dblp, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Robotics) / CiteScore - Q1 (Control and Optimization)
