

## Special Issue

# Feature Papers of Ruminants 2024–2025

### Message from the Guest Editors

Ruminant animals play a crucial role in sustainable agriculture by converting abundant resources, like rangelands, pastures, and crop residues, into food for humans. For this Special Issue of *Ruminants*, we are seeking the submission of manuscripts from all ruminant-related fields from our international readers, aiming to compile research that sheds light on the efficiency and significance of ruminant animals in food production in addition to the relationship between animal production and the different diets of ruminant animals, including their contribution to environmental impact. You are welcome to send short proposals for feature paper submissions to the Editorial Office ([ruminants@mdpi.com](mailto:ruminants@mdpi.com)) before submission.

### Guest Editors

Dr. Leilson Rocha Bezerra

Centro de Saúde e Tecnologia Rural, Universidade Federal de Campina Grande, Patos, Brazil

Dr. Phillip Lancaster

Beef Cattle Institute, Kansas State University, Manhattan, KS 66506, USA

### Deadline for manuscript submissions

31 December 2025

## About the Journal

### Message from the Editor-in-Chief

*Ruminants* (ISSN 2673-933X) is an international open access journal. It publishes original research articles, reviews, and communications that offer substantial new insight into any field of study that involves ruminants, including cattle, all domesticated and wild bovines, goats, sheep, giraffes, deer, gazelles, and antelopes.
