

## Special Issue

# Advancing the Science and Practice of Safety Climate and Culture

### Message from the Guest Editor

Much has already been written about safety climate and safety culture. This is both a strength and a weakness because while these concepts are clearly well-established and important to the safety profession, the diversity of conceptualisation, definition, and operationalisation has left the field fragmented and diffused. In this Special Issue, we invite scholars who share our passion in the importance of social phenomena in enhancing understanding of safety performance, and who also wish to contribute meaningfully to the advancement of science around safety climate and culture.

---

### Guest Editor

Dr. Tristan Casey

Safety Science Innovation Lab, School of Humanities, Languages and Social Science, Griffith University and Co-founder of Boutique Consultancy 'The Culture Effect', Queensland 4111, Australia

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Raphael Grzebieta  
Transport and Road Safety (TARS), University of New South Wales, Old  
Main Building (K15), Sydney, NSW 2052, Australia

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, ESCI (Web of Science), SafetyLit,  
and other databases.

##### Journal Rank:

CiteScore - Q2 (Safety Research)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 37.2 days after  
submission; acceptance to publication is undertaken in 5.7  
days (median values for papers published in this journal in  
the first half of 2025).
