

Special Issue

Feature Papers— Multidisciplinary Sciences 2025

Message from the Guest Editors

We are once again excited to announce the fifth edition of our annual Feature Papers Collection here in *Sci*. As we continue our mission to bridge gaps between diverse scientific disciplines, we are delighted to share with you that *Sci* recently achieved a CiteScore of 4.5 from SCOPUS, ranking it in Q1 among multidisciplinary journals. We have also updated *Sci*'s aims and scope ([see details](#)) in order to acquire a pending Journal Impact Factor. Thank you for your continued support! For our 2025 Special Issue, we encourage and seek high-quality contributions that relate to the environment and society. We invite you as an authority in your field to contribute a keynote publication that addresses scientific multi/interdisciplinary problem-solving. These "Feature Papers" will be collected as part of an annual overview of the activities of *Sci* and will be published in book format once the Special Issue is closed. We look forward to receiving your submissions that align with the scope of *Sci*'s diverse scientific activities. See previous editions: [2020 Edition](#); [2021 Edition](#); [2022 Edition](#); [2023 Edition](#); [2024 Edition](#).
