

# Special Issue

## Geosciences and Astronomy

### Message from the Guest Editor

The main goal of this Special Issue, which aims to demonstrate the potential synergy between astronomy and geosciences, is to provide an overview of technologies and methodologies, as well as references to practical applications in many important fields related to knowledge discovery in astro- and geo-science. The purpose is to provide a background and present some ideas and references that could be useful in the design of fully operational data analysis systems and of an experimental data science collection. We invite researchers from all relevant fields to submit their most recent findings for publication in this Special Issue.

Potential topics include, but are not limited to:

- Astronomy and astrophysics;
- Earth observation;
- Acquisition, processing, and visualization in geosciences and astronomy;
- Astrogeoinformatics.

---

### Guest Editor

Prof. Dr. Vladimir Sreckovic

The Astrophysics and Ionospheric Laboratory, Institute of Physics  
Belgrade, University of Belgrade, 11080 Belgrade, Serbia

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Claus Jacob  
Division of Bioorganic Chemistry, School of Pharmacy, Saarland  
University, D-66123 Saarbruecken, Germany

---

#### Author Benefits

##### High Visibility:

indexed within ESCI (Web of Science), Scopus, and other  
databases.

##### Journal Rank:

CiteScore - Q1 (Multidisciplinary)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 36.6 days after  
submission; acceptance to publication is undertaken in 6.8  
days (median values for papers published in this journal in  
the first half of 2025).
