

Special Issue

Industry 4.0—New Entrepreneurial Opportunities: How to Make Money with AI in Manufacturing

Message from the Guest Editors

We are calling for submissions that offer a blend of empirical research, theoretical insights, and practical case studies. Topics of interest include but are not limited to strategies for cost reduction, innovations in generating revenue, business process management and reengineering, and in-depth analyses of the economic effects of adopting AI in manufacturing. This Special Issue aims to serve as a vital resource for researchers, industry professionals, and policymakers. It provides a clear, evidence-based exploration of the economic opportunities AI introduces to the manufacturing sector. We are excited to explore how AI can foster economic growth and transform traditional manufacturing practices.

Guest Editors

Dr. Johannes Winter

Head of Technology Department, National Academy of Science and Engineering, Munich, Germany

Dr. Alexander Werbik

Institute of Management and Regional Economics, Lucerne University of Applied Sciences and Arts, Lucerne, Switzerland
