

Special Issue

Advances in Nanoparticle-Mediated Drug Delivery

Message from the Guest Editors

Developments in fundamental knowledge and engineering sciences have helped the field of pharmaceuticals. Nanotechnology-based materials are emerging as drug delivery carriers. This Special Issue entitled “Advances in Nanoparticle-Mediated Drug Delivery” from *Scientia Pharmaceutica* calls for cutting-edge research and review manuscripts dealing with insights of current developments of nanoparticles for targeted drug delivery. The issue will be focused on molecular drug targets, including disease-specific proteins, receptors, enzymes, and genes, which seek to elucidate the impact of new therapeutic agents on patient acceptability, preference, satisfaction, and quality of life.

Guest Editors

Dr. Murali Mohan Yallapu

Dr. Raghvendra A. Bohara

Dr. Varaprasad Kokkarachedu

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Helmut Viernstein
Department of Pharmaceutical Technology and Biopharmaceutics,
Faculty of Life Sciences, University of Vienna, Althanstrasse 14, A-1090
Vienna, Austria

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), Embase,
CAPus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q2 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 38.1 days after
submission; acceptance to publication is undertaken in 4.2
days (median values for papers published in this journal in
the first half of 2025).
