Deadline for manuscript
submissions:

30 September 2024

Message from the Guest Editor

Dear Colleagues,

The rapid advancements in Artificial Intelligence (AI) and smart sensing technologies have ushered in a new era in healthcare. These technologies offer unprecedented opportunities for enhancing patient care, improving diagnostic accuracy, and enabling the development of more personalized treatment approaches. This Special Issue aims to explore the diverse applications of AI and smart sensing in healthcare, highlighting innovative research and developments that leverage these technologies to address current healthcare challenges. The intersection of AI and smart sensors represents a burgeoning field that holds the potential to transform healthcare delivery, patient monitoring, and medical diagnostics.

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Instruments & Instrumentation*) / CiteScore - Q1 (*Instrumentation*)
