Disruptive Technologies and Wireless Sensor Network Communication Algorithms (2nd Edition)

Guest Editors:

Dr. Cheong Ghil Kim

Dr. Gyanendra Prasad Joshi

Dr. Chayapol Kamyod

Dr. Kyoungro Yoon

Deadline for manuscript submissions:

10 June 2025

Message from the Guest Editors

Dear Colleagues,

The advancement of 5G, embedded, and sensor technologies has resulted in the rapid development of many services and applications. These evolutions will enable development and innovation in a variety of fields, including ultra-high-definition multimedia streaming and mixed reality, massive machine-type communication, and ultra-reliable and low-latency communication.

This Special Issue aims to represent the most recent advances in disruptive and sensor technology for business and industrial applications. We welcome contributions in all areas of communication and networks, including sensors, embedded systems, multimedia (AR, VR, and MR), IoT, IoM, and smart and automation systems such as automation systems, signal processing algorithms, and new or disruptive applications. Topics may include, but are not limited to:

- 5G and next-generation networks;
- Deep learning;
- Wireless sensor and networks;
- Disruption technology and algorithms;
- Smart grids and smart systems.

Elettrica e dell'Informazione
(Department of Electrical and
Information Engineering),
Politecnico di Bari, Via Edoardo
Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (Chemistry, Analytical) / CiteScore - Q1 (Instrumentation)
