Message from the Guest Editor

Dear Colleagues,

This Special Issue aims at collecting high quality research papers and review articles focusing on recent advances in BLE. Original, high-quality contributions that have not been published before and are not currently under review by other journals or conferences are sought.

Potential topics of interest include but are not limited to the following:

- Performance evaluation (e.g., mathematical analysis, simulation and/or experimentation) of BLE networks;
- BLE version-oriented studies (Bluetooth 4.x, Bluetooth 5, Bluetooth 5.1);
- Internet connectivity of BLE devices: 6LoWPAN/6Lo, gateway-based approaches, etc.;
- BLE mesh networking standardization efforts: Bluetooth Mesh (Bluetooth SIG), IPv6 mesh over BLE (IETF), etc.;
- Novel approaches to BLE mesh networks;
- Coexistence of BLE with other wireless technologies;
- BLE beacons;
- BLE-based localization;
- BLE-based opportunistic sensor data collection;
- Innovative applications of BLE in smart home, smart cities, smart transportation, smart agriculture, smart health, Industry 4.0, etc.
- Applications of BLE for combatting COVID-19: parameter monitoring, contact tracing, etc.

Elettrica e dell'Informazione
(Department of Electrical and
Information Engineering),
Politecnico di Bari, Via Edoardo
Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
