Distributed Algorithms for Wireless Sensor Networks

Guest Editors:

Prof. Dr. Mohamed Mosbah
LaBRI , Université de Bordeaux, 351, cours de la Libération, 33405 Talence Cedex, France

Dr. Imen Jemili
Faculty of sciences of Bizerte, Univ. Carthage, 7021 Bizerte, Tunisia

Dr. Mohamed Tounsi
Common First Year deanship, Umm Al-Qura University, Makkah, Saudi Arabia

Deadline for manuscript submissions:
closed (31 December 2021)

Message from the Guest Editors

This Special Issue welcomes contributions dealing with distributed algorithms for Wireless Sensor Networks tackling all aspects :

- Distributed Algorithms for Sensor Networks
- Distributed communication and networking algorithms and protocols
- Mobile and Wireless Network Computing for WSNs
- Formal methods for Sensor Networks
- Edge and fog computing
- Artificial intelligence (or machine intelligence) in distributed sensor systems
- Crowdsourcing and Wireless Sensors
- Vehicle platoon networking
- Distributed and federated Machine Learning
- Internet of Things and cyber-physical systems
- Sensor technologies and monitoring
- Security, privacy, and trust in WSNs
- MAC protocol
- Routing protocols

Special Issue

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.
Journal Rank: JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
