## Distributed Composition Services for Wireless Sensor Networks

Guest Editors:

**Prof. Dr. Stavros Koubias**

Department of Electrical and  
Computer Engineering, University  
of Patras, 26504 Patras, Greece

**Dr. Christos Antonopoulos**

Department of Electrical and  
Computer Engineering, University  
of Peloponnese, Patras, Greece

**Dr. John Gialelis**

Department of Electrical and  
Computer Engineering, University  
of Patras and Industrial Systems  
Institute, Patras, Greece

Deadline for manuscript  
submissions:

**closed (31 August 2020)**

### Message from the Guest Editors

This Special Issue on “Distributed Composition Services for Wireless Sensor Networks” is focused on the increasing need for original contributions on new and innovative approaches, methods, techniques and state-of-the-art applications (for instance, IoT, industrial, smart city, precision farming, energy management, traffic monitoring, environmental, healthcare, etc.), regarding the formulation, modeling, and composition of distributed services (service discovery, task allocation, task coordination, remote task communication, task migration, security, etc.) for WSNs, providing robustness; fault tolerance; security; QoS awareness; cost-efficiency; and the efficient use of underlying network resources, especially in heterogeneous environments.

This Special Issue encourages the submission of both review and original research articles related to the above-mentioned subjects.

- Wireless sensor and actor networks
- Formulation
- modeling and composition of distributed services
- real-time
- fault tolerance
- security
- methods
- techniques
- state-of-the-art applications

## Editor-in-Chief

### **Prof. Dr. Vittorio M. N. Passaro**

Dipartimento di Ingegneria  
Elettrica e dell'Informazione  
(Department of Electrical and  
Information Engineering),  
Politecnico di Bari, Via Edoardo  
Orabona n. 4, 70125 Bari, Italy

## Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

## Author Benefits

**Open Access :** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Instruments & Instrumentation*) / CiteScore - Q1 (*Instrumentation*)
