### Message from the Guest Editors

This Special Issue aims to solicit original papers with novel contributions on the integration of edge computing and artificial intelligence for next generation sensor networks. Novel computing schemes or applications by the integration of edge computing and artificial intelligence are particularly welcome.

We especially welcome authors of selected papers from 8th World Conference on Information Systems and Technologies (WorldCist'20) to be held in Budva, Montenegro, in April 2020 (<http://worldcist.org/index.php/call-for-papers>). However, we also welcome other papers related, but not only limited as follows:

- Edge Computing
- Sensor Networks
- Artificial Intelligence
- Low Energy Consumption
- Next-Generation Networks
- Data Mining
- Knowledge Extraction
