# **Electrochemical (Bio)sensors for Biomedical Applications**

Guest Editors:

### Dr. Angeliki Brouzgou

Department of Energy Systems, School of Technology, University of Thessaly, Geopolis, Ring-Road of Larisa-Trikala, GR-41500 Larisa, Greece

#### **Dr. Theodoros Damartzis**

Industrial Process and Energy Systems Engineering (IPESE), École Polytechnique Fédérale de Lausanne (EPFL), 1951 Sion, Switzerland

Deadline for manuscript submissions: closed (30 September 2022)

#### **Message from the Guest Editors**

Dear Colleagues,

As electrochemical technology has evolved over the years, it has proven to be a considerably important tool in the fields of neuroscience and medical diagnosis. The nervous system is controlled by many compounds, such as dopamine, ascorbic acid, and others (known also as neuromodulators), which can be detected with the aid of electrochemical sensors. Accurate detection of such substances could lead to earlier diagnosis of diseases and to a better comprehension of the nervous system. Selectivity and stability of the studied materials involved in such sensors are the main challenges, mainly for in vivo electrochemical recordings. Enzymeless-based electrochemical promising sensors are considered candidates for such compounds' detection.

Prof. Dr. Brouzgou Angeliki Dr. Theodoros Damartzis *Guest Editors*

### Message from the Editor-in-Chief

#### **Prof. Dr. Vittorio M. N. Passaro** Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

## **Author Benefits**

**Open Access :** free for readers, with article processing charges (APC) paid by authors or their institutions. **High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases. **Journal Rank:** JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
