Industry 4.0: From Future of IoT to Industrial IoT

Guest Editors:

Dr. Sudan Jha
School of Computer Science and Engineering, Lovely Professional University, Phagwara, India

Dr. Hoang Viet Long
Faculty of Information Technology, People's Police University of Technology and Logistics, Bac Ninh, Viet Nam

Dr. Gyanendra Prasad Joshi
Department of Computer Science and Engineering, Sejong University, Seoul 05006, Republic of Korea

Deadline for manuscript submissions:
closed (31 January 2021)

Message from the Guest Editors

The Industrial Internet of Things (IIoT) has now become a reality in the context of industrial transformation. It is becoming increasingly more pervasive in the industry as digitization is becoming a business reality for many organizations in some of the most trending sectors, such as health, agriculture, manufacturing, logistics, oil and gas, energy, and other utilities. This has compelled scientists and researchers to contribute more to advanced techniques in the field of distributed computing, integrated artificial intelligence, data mining, data aviation, machine learning, M2M communication, and many more. In this Special Issue, we aim to bring together academic and industrial researchers to explore the opportunities of IIoT for upcoming various domains and to focus its impact on the solutions of the aforementioned challenges and propose feasible solutions.

Special Issue

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.
Journal Rank: JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
