Message from the Guest Editor

Dear Colleagues,

The ICCIS 2023 will be held in Chongqing, China during 20–22 October 2023. Authors of papers on communication presented at the conference are invited to submit extended versions of their work to this Special Issue for publication.

ICCIS 2023 aims to collect high-quality original research papers (including significant work in progress) on any aspect of wireless communication systems, information theory and coding, and network security and privacy, among others.

Authors of conference papers that fall within the scope of *Sensors* are invited to submit extended papers to this Special Issue. Topics of interest include:

- Communication theory; Information theory;
- Coding theory; Telecommunication and networking;
- Network security; Wireless/mobile communications and technologies;
- Adhoc networks; Satellite communication;
- Antenna and propagation; VLSI design;
- Optoelectronics and optical communication;
- Green communication;
- Telecommunication Technologies

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.
