Message from the Guest Editors

Dear Colleagues,

This special issue aims to provide a forum for further discussion on the most recent advances in the emerging industrial convergence centered around the information and communication technologies from ICTC 2019. In particular, it will bring further challenges with realizing ICT convergence over the various industrial sectors, including mobile communications, intelligent transportation, healthcare, and artificial intelligence. It is encouraged that the submission of both review and original research articles dedicated to ICT convergence including future wireless communications.

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.
